Testimonials: Real Experiences, Real Impact

**** Priyanka, MBA HR and Trainer from Pune****

"Mr. Shrinivas Sir's teaching style was amazing—he kept us fully engaged. The 14 hours felt less like time spent and more like a valuable investment; not a single minute was uninteresting. This content is truly the need of the hour, and I'm confident it will empower me to give my best when I begin training students in my region. Thank you, Sir!"

**** Mr Tanveer, MA English, Kashmir ****

I have invested in many courses over the years, but honestly, I never completed most of them because they felt boring or disconnected. The program from NISAT was completely different. I was genuinely eager for every session. The structure, delivery, and practical content kept me engaged throughout and helped me grow as a trainer. It has truly transformed my approach, and I have now taken the Smart Sutra franchise as well.

****Ranganna Dasari, Advocate and English Trainer from Hyderabad****

"These past days have been some of my best learning experiences. I've attended similar trainings before, but this one truly stands out for being focused, thorough, and covering so much in such a short time. Sir was generous in sharing recordings and PPTs, which are a great resource for me to review and aspire to train as effectively as he does. Grateful to be connected with him!"

**** Akhila NK, MSc, Soft Skills Trainer**

With an M.Sc. background and experience as a professor, I always focused on academics and competitive exam preparation. I joined the program simply to upskill myself. But stepping into the world of soft skills changed everything for me. I discovered a new dimension of training beyond textbooks — communication, confidence, and real transformation. Today, I proudly work as a Soft Skills Trainer, and this journey has truly redefined my career path.

****Mr. Raj, Teacher from Kurukshetra, Haryana****

"These 7 days have been truly enriching. I've learned invaluable techniques and skills that not only made me a better teacher but also a better person. Each lesson felt like an asset I'll carry forward as I train my students with the knowledge and strategies I've gained. My heartfelt thanks to our mentor, Mr. Shrinivas B, for crafting this course into such a wonderful bouquet of insights and presenting it so effectively. Truly an inspiring experience!"

Madhumita, Madhurai

I joined the program with curiosity, but I stayed because of the clarity and practical learning it offered. The structured approach and real-time guidance helped me build confidence and refine my training skills. It has been a truly enriching experience.

☀ Sapna Gupta— Soft Skills Trainer at an NGO, New Delhi

There was a time when I felt lost after spending years preparing for competitive exams. I had almost lost faith in my career. With very little expectation, I attended a live webinar and later joined the mentorship program — and that decision changed my life. Today, because of Shrinivas Sir's guidance, I have found my identity, I am employed in a reputed company, and I truly love what I do.

☀ Mandavi, Life Skills Trainer, Prayagraj

I initially joined the program to obtain a formal certification. However, what I received was far more valuable. The structured curriculum, practical assignments, and detailed evaluations helped me truly improve as a trainer. It wasn't just about earning a certificate — it was about becoming better and more confident in my skills.
